Honourable Jerome Kennedy, Q.C.
MHA, Carbonear-Harbour Grace
Minister of Finance and
President of Treasury Board
Government of Newfoundland and Labrador
Confederation Building
St. John’s, NL   A1B 4J6

Dear Minister Kennedy:

As the Chair of the Committee responsible for the Government Money Purchase Pension Plan (GMPP), I hereby submit the 2012 Annual Report for the Committee. The report was prepared under the committee’s direction and the committee is accountable for the results contained herein.

The GMPP Committee’s mandate is to administer the GMPP, including the setting of investment policy, the recommendation for appointment of an administrator/custodian and the monitoring of plan performance.

The GMPP is a capital accumulation plan, that is, the level of benefits provided at retirement are dependent on the contributions and the income earned on those contributions during an employees career. It is critical that participating employees become actively engaged in the management of their respective plan assets in order to ensure security in retirement and is the key strategic issue for the GMPP Committee.

Plan members have been reluctant to make any investment choice, and instead are allowing their funds to be directed to the low risk, low return default investment. Employees should be aware of both the potential risks and rewards of making an active decision and the possible impact of their return goals.

This annual report outlines the activities of the GMPP Committee and the growth in assets and membership during 2012.

I am pleased to submit the 2012 Annual Activity report for your consideration.

Yours sincerely,

Ann Marie Miller
Chair of the GMPP Committee
OVERVIEW

The GMPP Committee was established by the Lieutenant-Governor in Council to oversee the operations of the Government Money Purchase Pension Plan. Employer representatives are appointed by virtue of their positions in government, while employee representatives are appointed based on the recommendation of the various unions. Committee members are responsible to ensure that contributions accumulated to the credit of the employee are invested prudently in the investment classes prescribed by the Committee and to promote the plan and educate employees on the importance of taking an active interest in their investments.

Government Money Purchase Pension Plan Committee Members
(As of December 31, 2012)

**Government and Employer Representatives:**

- Ann Marie Miller, Chair
  - Assistant Deputy Minister, Financial Planning and Benefit Administration, Department of Finance
- Maureen McCarthy
  - Director, Pension Administration, Department of Finance
- William Noftall
  - Manager, Pension Benefits, Department of Finance
- Brian Shortall
  - Executive Director, Newfoundland and Labrador School Board Association
- Rick Hindy
  - Manager of Budgeting, Eastern Health Authority
- Marie Wells
  - Director, Human Resources, Policy and Planning, Public Service Secretariat
- Michael Rickert, Secretary
  - Departmental Program Coordinator, Department of Finance

**Employee Representatives:**

- Bert Blundon
  - Newfoundland and Labrador Association of Public and Private Employees
- Steve Brooks
  - Newfoundland and Labrador Teachers’ Association
- Sharon King
  - Association of Allied Health Professionals
- Dawn Learning
  - National Representative, Canadian Union of Public Employees
- Eileen Humphries
  - Newfoundland and Labrador Nurses’ Union

The retirement security of a GMPP member depends on the member’s investment decision, which in turn depends on the member’s investment profile and risk tolerance. Consequently, it is critical that members take an active interest in their portfolio. To facilitate prudent investment decisions by members, the Committee has established and implemented a Statement of Investment Policies and Procedures which specifies the investment options to be provided to members. These options include Guaranteed Investment Accounts (GIAs) and market based funds, including an equity fund, a bond fund, a global equity fund and a balanced fund.

To assist in fulfilling its mandate to educate plan members, the Committee has retained the services of Great West Life Assurance Company (GWL) who fulfills the roles of both the custodian and administrator of the GMPP. The Committee also retains an investment consultant, Russell Investments to assist in the design, implementation, and ongoing evaluation of all aspects of the pension investment program.
Phillips, Hager & North Investment Management Limited (PH&N) has been retained to manage all market based investment products and Morneau Shepell, on an as needed basis, provides advice on various pension issues relating to compliance with pension legislation and the *Income Tax Act*.

**MANDATE**

The GMPP Committee’s mandate is to administer the GMPP, including the setting of investment policy, the recommendation for appointment of an administrator/custodian and the monitoring of plan performance.

**LINES OF BUSINESS**

Prudent management of the GMPP, including:

1. The development, implementation and review of investment alternatives to provide plan members with the ability to make an active investment decision with respect to their accumulated funds
2. Promotion of the plan and education of plan members on the importance of taking an active interest in their investments
3. Oversight to ensure that contributions accumulated to the credit of plan members are invested prudently in the investment classes prescribed by the Committee

**VALUES**

Self Determination: All plan members have a right to make or not to make an active investment decision with respect to their accumulated funds.

Respect: Each member of the GMPP Committee respects the rights of plan members to make or not to make an active investment decision with respect to their accumulated funds.

**PRIMARY CLIENTS AND STAKEHOLDERS**

The primary clients for the GMPP Committee are the employees who participate in the plan.

The stakeholders for the GMPP Committee are the Minister of Finance as Trustee, 57 participating employers and the Unions which represent participating employees.

**VISION**

The vision of the GMPP Committee is to have all participating employees select an investment strategy suited to their retirement objectives with the ultimate goal to maximize the amount of pension funds available at retirement.
MISSION

Consistent with its vision that all employees will take an active interest in their retirement objectives, the Committee’s mission is to enhance plan administration and continue to encourage employee participation in the investment selection process. Currently, less than 50 per cent of members make an active investment decision with respect to the funds they are contributing to the GMPP.

By 2016, the Government Money Purchase Pension Plan Committee will have built on the success of the GMPP by improving administration for the benefit of all plan members and engaging more stakeholders in decision making.

Measure: Enhanced administration
Indicators: Reduced turnaround time for plan to plan transfers

Measure: Plan member engagement
Indicator: • Increased number of plan members taking active interest in their investments
• Increased attendance at information sessions

*During September 2012 the first GMPP Administrator’s Conference was held as part of the Committee’s mission of enhanced administration

Since the inception of the GMPP in 1989, actuarial consulting and support staff costs have been paid from employer contributions that are forfeited when members who are not vested terminate from the plan and take a refund of their contributions. The balance in the forfeitures account was $2,773,574 as of December 31, 2012 as compared with $2,371,142 as of December 31, 2011. Subsequent to year end, $2,000,000 was paid to the Province from the Forfeiture Account to reduce expenses of the plan.

Investment management fees for Philips Hager & North, which are based on a percentage of the total plan assets which they manage, are paid by the plan member from their investment earnings.
Membership Status
Plan membership has increased from 31,243 accounts in 2011 to 31,662 accounts in 2012. The number of accounts includes both active participants and terminated employees who have left their funds on deposit with GWL. Of the total number of accounts, 13,132 are members who contributed during 2012. Efforts are continuously on-going to contact many of the account holders to advise them of their transfer options should they wish to move their funds from the plan. The following table details the change in membership from 2011 to 2012.

FINANCIAL HIGHLIGHTS

Market Value
Employee contributions for the year totalled $13.5 million of which $241,866 were Additional Voluntary Contributions (AVC’s) and $158,733 were transfers from other pension plans. Plan members may deposit AVC’s to the plan, subject to RRSP limitations under the Income Tax Act. These AVC’s are not matched by the employer. Employer contributions for the year totalled $13.1 million and investment income was $13.4 million. Statement of changes in Assets for the year ended December 31, 2012 is shown below:

* Current benchmark composition: 35% S&P/TSX Capped Composite Index, 25% MSCI World ex Canada Index, 35% Dex Universe Bond Index, 5% Dex 30-Day T-Bill Index.
Note: All performance data is shown on a gross “pre-fee” basis.
All Funds outperformed the 3 month and 1 year Benchmark during 2012.

Asset Mix and Fund Performance information was extracted from the December 31, 2012 PH&N Fund Management Report.
ACTIVITIES

Issue 1: Improved Governance

The current committee membership structure was implemented in 1997 with a view to ensuring that all plan stakeholders were represented. Broad membership representation along with pension standards legislation and industry best practices have supported the governance practices of the committee. GWL in its role as plan administrator has also assisted the committee in fulfilling its role. However the committee recognizes the need to review current processes to ensure that it is fulfilling its fiduciary obligations to plan members. To this end, a review of current governance practices was planned for 2012 with the intent to develop and implement recommendations to improve committee governance (e.g. Governance Education program)

Objective 2:

By December 31, 2012, the GMPP Committee will have developed and implemented improved Governance practices and a Governance Education Plan for existing and new Committee Members.

- **Measure:** Improvements to governance practices and committee education developed.

- **Indicator:**
  - Review of current governance practices completed
  - Governance education plan implemented
  - Implementation of recommendations of review, where appropriate

2012 Results:

During the 2012 fiscal year, the Committee appointed a consultant to complete the governance review. The review has been completed and a report prepared, however due to changes in committee membership as a consequence of departmental restructuring, the governance education plan and report of recommendations has yet to be reviewed by the Committee.

Issue 2: Education and Promotion

The GMPP is a capital accumulation plan where employee contributions together with the employer match are deposited to individual accounts. The employee has the option to allocate those contributions to a variety of investment vehicles, with the ultimate accumulation at retirement dependent on the investment selection of the employee. Employees are provided with the tools to assist them with their asset allocation decision, but many either do not or choose not to avail of those tools. The Committee has endeavoured to engage employees in the process by promoting the plan and offering annual educational sessions across the province. Unfortunately these efforts have not been as successful as anticipated. During the 2012 Fiscal Year, the committee continued to enhance employee engagement.
Objective 2:

By December 31, 2012, the Committee will have begun implementation of select components of the education and promotion plan and increased availability of educational opportunities.

**Measure:** Select components of the education and promotion identified for implementation

**Indicators:**
- Implemented 2 on-line education sessions
- Completed evaluation of on-line education sessions
- Delivered a new GMPP Member Enrolment Video
- Delivered an employer training session in St. John’s
- Administered a survey of plan members to determine the level of interest in other types of investment choices

**2012 Results:**
- Provided 21 on-line plan member education sessions during normal working hours and at 7pm. A total of 126 plan members participated.

- An evaluation of the on-line education sessions was not completed during the 2012 fiscal year (as originally planned) because the 2012 was the first year of implementation. The Committee determined that an evaluation was premature at this stage of implementation.

- GMPP Member Enrolment Video was approved by the Committee and delivered to employers at the Administrators Conference September 2012. Additionally, access to this video is included in the plan member enrolment package.

- GMPP Administrator Conference was held in St. John’s September 26-27. The purpose of the conference was to enhance employers’ ability to provide guidance to their employees who participate in the GMPP, thus improving overall plan administration. A total of 69 Administrators attended the conference representing 39 Employers.

- Plan Members were surveyed to determine the interest in adding additional investments, such as Target Date Funds, to the line-up of investment options. Unfortunately the response received from members was extremely low; insufficient to determine member interest.
THE YEAR AHEAD

Issue 1: Improved Governance
The committee will continue with the implementation of the recommendations from the governance review. This includes the development of an education plan for committee members.

Objective 3:
By December 31, 2013, the GMPP Committee will have reviewed the effectiveness of the new governance practices.

Measure: New governance practices implemented and reviewed

Indicator:
- Implemented administrative mechanisms for improved governance
- Implemented education plan for GMPP members
- Completion of post implementation review

Issue 2: Education and Promotion
The primary focus for 2013 will continue to be plan member communication and education. As evidenced by the continued high percentage of investments in the Balanced Funds and Guaranteed Investment Accounts (GIAs), many plan members are reluctant to make active investment decisions with respect to their accumulated funds. This year on-line sessions will be held quarterly to discuss the various investments under the plan and tools available to assist members in selecting investments applicable to their investment personality.

In order to encourage plan members to take a more active interest in the GMPP, officials of the Department of Finance and Great West Life will continue to offer seminars to all plan members that will focus on educating members on the importance of investment selection. These sessions will be scheduled for the Fall of 2013 and the opportunity will again be extended to employers to host the sessions on site at locations most beneficial to plan members.

Objective 3:
By December 31, 2013, the GMPP Committee will have continued implementation of the education and promotion plan for member engagement in investment decision making.

Measure: Capacity for engagement is enhanced

Indicator:
- Developed resources to facilitate decision making
- Increased opportunities to participate in education
- Developed education and promotion plan targeted to specific plan member groups
